MEANS/PROCESSES FOR STUDENT FEEDBACK ON COURSE

COURSE POLICY (e.g. plagiarism, academic honesty, attendance, etc.)

Academic Honesty

Plagiarism (<http://www.rss.hku.hk/plagiarism/>)

"A candidate shall not engage in plagiarism nor employ nor seek to employ any other unfair means at an examination or in any other form of work submitted for assessment as part of a University examination. Plagiarism is defined as the unacknowledged use, as one's own, of work of another person, whether or not such work has been published."

"In this University, plagiarism is a disciplinary offence. Any student who commits the offence is liable to disciplinary action."

You are strongly advised to read the booklet "What is Plagiarism" (<http://www.rss.hku.hk/plagiarism/>) and to consult your teachers if you have any questions about how to avoid plagiarism.

Cheating

Cheating is another very serious academic offence. Any student who commits cheating on homework assignments or final examination will receive a grade "F" for the whole course. In addition, the case will be reported to the relevant Board of Examiners and/or the Senate of the University for further actions.

Class Attendance

To maximize learning experience, students are strongly recommended to attend all the lectures and tutorial classes, submit the homework assignments on time and participate actively in the term project. Based on the records of the past semester, the correlation between course performance and attendance rate in lectures was very high. The work load of this course is quite heavy and students are expected to spend at least 130 contact hours as described above.

Class Conduct

The guiding principle governing class conduct is mutual respect. All mobile phones must be switched off or on silent mode. No eating or drinking is allowed. Students should not disturb others in class.
